Your child is at the centre of this varied, creative and individualised programme which follows, responds to and evolves from the interests of each individual. Adults accompany their children on this bespoke learning journey and acquire skills and knowledge to support their child’s development at home.

The Bilingual Baby Club is a unique opportunity for families with babies and toddlers aged between 14 and 36 months, committed to a bilingual early years education. The programme follows the English Early Years Foundation Stage Curriculum, which consists of seven areas of development: the three prime areas of personal, social and emotional development, communication and

language, physical development; and four specific areas of literacy, numeracy, understanding the world, and design and expressive arts; and will be an active and flexible programme, adapting to the ever changing needs of its participants. The bespoke activities and resources will reflect the individual preferences and varying developmental needs and abilities of the children.

**BENEFITS FOR THE CHILD**

- Contextualised English language input.
- Exposure to natural interaction.
- Feedback and immediate response to needs.
- Enabling learning environment.
- Wide range of high quality resources.
- Freedom to explore and experiment.
- Individual attention.

**FOR THE ADULT**

- Gain understanding of early childhood development.
- Learn how to incorporate English in child’s play.
- Discussion and support from professionals.
- Continuous and personalised feedback.
- Live demos of play examples and language support.
- Safe, friendly, controlled environment.
- Limited places, small group size, personalised attention.

**HOW AND WHEN**

From September to June, in 90 minute sessions, once or twice a week, our bilingual babies and their accompanying adult experience, play and learn in our specially designed and prepared indoor and outdoor spaces. The experienced and professional teachers facilitate and gently encourage interaction, within this relaxed and fun environment for discovery and learning. We provide ongoing individualised feedback and support, and use electronic personal portfolios to record observations of children’s learning and development throughout the year. A lovely way to remember all of those early milestones and special moments.
